

iMobie Launches AnyTrans 5 - The Ultimate iPhone Manager With Blazing Flash-Sync Speed And Redesigned Interface

LOS ANGELES, Calif., Sep. 6, 2016 – iMobie Inc., the leading provider of iOS utility software, today released the most advanced all-in-one iPhone manager AnyTrans 5, offering easy yet comprehensive tools to craft the best iPhone, iPad and iPod touch experience.

Redesigned with a minimalistic interface, the program creates a beautiful environment to further live up its world-class organizing features. Beyond that, the update also dramatically enhances the data transfer speed, resulting in migrating hundreds of pictures and songs in only seconds. Additionally as new iPhone 7 arrives, AnyTrans 5 also helps new-iPhone users to migrate their entire collections from the old iPhone into the other new one.

“AnyTrans is developed for the most essential things you use with iPhone for everyday — music, pictures, media library, data transfer and so much more.” Said proudly Frank Kong, CEO of iMobie. “Now we have further revamped AnyTrans 5 not only to perform the fastest sync speed far ahead of market, but also refine the interface and improve the performance in lots of aspects, which overall amounts to the most efficient and beautiful iPhone-manager.”

Blazing Flash-Sync

Upgraded with Flash-Sync — the cutting-edge technology applied for data transfer — AnyTrans 5 now compresses the time required to export files significantly down to 1/5 of the last version. Now it needs only 24 seconds to transfer 10 complete music albums and much even shorter 3.4 seconds with 100 images, which leaps past most rivals at a unshaken advantage.

Fresh Modern Interface

With a simple yet lively design, AnyTrans 5 wraps up its heavy-weight organizing features in a lightsome interface. With lively bubble buttons, it's easier and more intuitive than ever for users to transfer their playlists, sort photos, back up data and manage all-important information. Besides, the added refreshing cut scenes also help cheer user's mind up when they're waiting for a transfer process to complete, or dealing with myriads of iPhone data.

Connect All Devices and Files Resources

AnyTrans not only builds a super-fast bridge across all users' devices including iPhone, iPad, iPod touch and computer. It also streamlines access to all files hidden beneath iTunes library, iTunes backup, iCloud and deep iOS. Therefore

users can export, transfer and organize their iPhone content conveniently all in one place without any limit.

Pricing and Availability:

Users can download AnyTrans 5 for both Mac and Windows from:
